**SETTING STAKES FOR YALE-HARVARD COURSE**  
Four Miles for the Crews to Row Will Be Flagged Off.

Chairman Frank V. Chappell of the regatta committee will begin at once to set out the flags in the Thames river race course in preparation for the annual Yale-Harvard regatta. Wallace A. Beckwith, who has been engaged for years to stake out the four mile course, from the bearings which he carries by memory, the work is retained to supervise this course. Since races were rowed on this course Mr. Beckwith has been depended on to remember where the flags go. One year stakes were erected ashore, but before the next year most of the stakes had gone the way of all good kindling wood, and it was found very handy to call on Mr. Beckwith again. Mr. Beckwith was employed in this work when he was foreman carpenter for the New London Northern railroad, which assumed a large responsibility for the arrangements for the races and depended on the only observation train for revenue.

**DEAFNESS CANNOT BE CURED**  
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Cures are effected by a natural condition of the mucous lining of the Eustachian tube. When this tube is inflamed, it causes a running ear, with imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation be taken out and this tube restored to its normal condition, deafness will be permanent. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. E. J. CROWLEY & Co., Toledo, Ohio. Sold by druggists, 75c.
